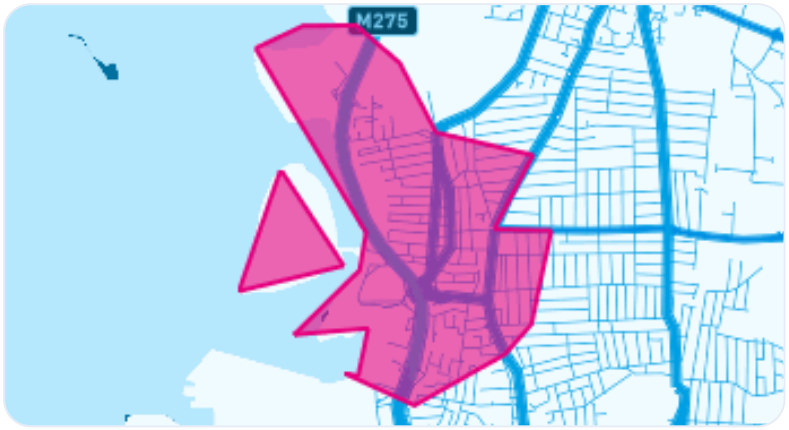
Force: Hampshire

HIGHEST RISK LOCATION



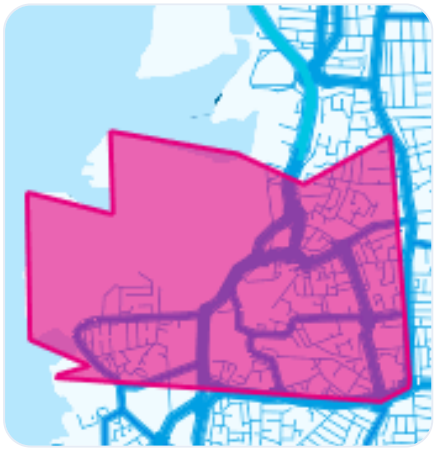
Nelson | 9 | High

Nelson holds the highest risk rank within Hampshire. The area faces extremely likely risks of 'Violence and sexual offences', 'Public order', 'Shoplifting', and presence of multiple 'Major junctions'. Moderate risks appear in homelessness and wellbeing, with a high likelihood of 'Possession of weapons'. Policing must focus on violence prevention and managing public disorder effects.

OTHER HIGH RISK LOCATIONS

Charles Dickens

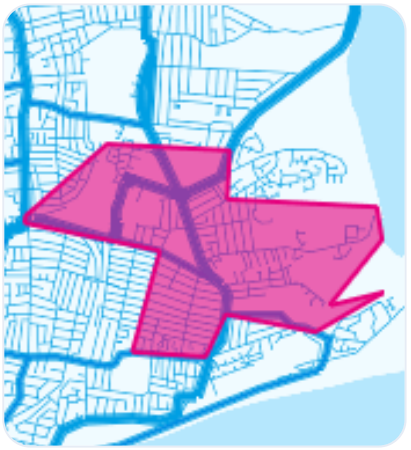
9 | High



Charles Dickens ranks second in risk within Hampshire. There is an extremely likely occurrence of 'Violence and sexual offences', 'Shoplifting', and 'Public order'. Moderate risks for homelessness and wellbeing remain, combined with high risks in 'Fast food outlets' presence. The Police need to focus on reducing violent and property-related incidents to manage community safety.

Milton

9 | High



Milton is ranked third highest risk in Hampshire. Likelihoods rated extremely likely include 'Violence and sexual offences', 'Shoplifting', 'Public order', and 'Drugs'. Moderate risks involve population wellbeing and homelessness. Policing focus should address violent behavioural risks and anti-social activities, with attention to retail crime prevention.

St Thomas

9 | High

St Thomas ranks 4th in Hampshire's risk factors. There are extremely likely risks of 'Violence and sexual offences', 'Shoplifting', and 'Public order'. Moderate risks involve homelessness and wellbeing. Risks from 'Fast food outlets' and 'Retail parks' are also high. Policing efforts need emphasis on mitigating violence and ensuring public order.

Observations

The risk landscape in Hampshire is characterised by consistently high likelihood ratings across a range of crime types, with all top 10 risks scoring 8.0 out of 10. These risk scores are derived from multiple data inputs, including demographic and environmental factors, providing an objective measure of the likelihood of each risk materialising rather than direct crime rates. The highest ranked risks include 'Asset Crime - Theft of Vehicle' and 'Violence & Abuse - Hate Crime', both scoring 8.0 and maintaining their positions as the top two risks. This indicates a persistent vulnerability in these areas, reflecting ongoing challenges in protecting property and addressing community tensions.~~Other notable risks such as 'Theft - From Service Desk', 'Public Order - Drug Usage', and 'Burglary & Robbery - ATM Rip Out' also maintain a risk score of 8.0, highlighting a broad spectrum of concerns from opportunistic thefts to more organised criminal activity. The risk of 'Trespassing - Encampment' and 'Theft - Fuel Drive Off (Bilking)' similarly remain steady, suggesting stable environmental and economic factors influencing these risks. Importantly, the risk of 'Violence & Abuse - Sexual Assault' has increased from 7.0 last month to 8.0, marking a significant upward trend that warrants attention due to the serious threat to life and wellbeing associated with this risk.~~Overall, the risk trend in Hampshire is largely stable with no significant decreases reported among the top risks, except for the emerging rise in sexual assault risk. This stability may reflect consistent underlying social and economic conditions, while the increase in sexual assault risk could be influenced by factors such as changes in reporting, community dynamics, or local policing challenges. The uniformity of risk scores across diverse categories underscores the complexity of Hampshire's security environment, where multiple risks coexist at high likelihood levels, necessitating ongoing monitoring to understand and respond to evolving threats.

Police Reported Incidents

CRIME TYPE	PREVIOUS	CURRENT	TREND
Anti social behaviour	1848	2308	
Criminal damage and arson	980	1162

Other crime	285	295	
Robbery	165	150	
Theft from the person	66	88	
Possession of weapons	200	166	

In Hampshire, notable increases are seen in 'Violence and sexual offences', 'Public order', 'Anti-social behaviour', 'Criminal damage and arson', 'Other theft', 'Shoplifting', and 'Drugs', indicating rising concerns in both personal safety and retail security. 'Violence and sexual offences' and 'Anti-social behaviour' show significant upward shifts, which is particularly concerning for public safety. Conversely, 'Robbery', 'Vehicle crime', and 'Possession of weapons' have decreased, suggesting some improvement in these areas. Crimes such as 'Other crime' and 'Bicycle theft' remain relatively stable with minor fluctuations. The rise in 'Shoplifting' and 'Other theft' is especially relevant for retail security, highlighting increased risks to businesses. Overall, the upward trends in violent and disorder-related crimes warrant attention due to their potential impact on community safety and retail environments.

Across all incident categories, ASEL has recorded zero incidents within this Force area. This lack of reported activity suggests that ASEL does not have a sufficient operational presence or in the region to support reliable trend analysis or meaningful comparisons with other data sources. Accordingly, ASEL has been excluded from the overall risk likelihood scoring for this area, and its weighting has been redistributed across other available indicators, including crime statistics, demographic profiles, and environmental risk factors.
